

Specification

Product:	TURF terra vital
Type of substance:	Organic Sugar Phosphorus Amide
Form:	liquid
Analysis:	TURF terra vital is an energetic macromolecule, based on: a) 12 % nitrogen (organically bound) b) sugar (C5 and C6 sugar) c) 8 % phosphorus (P ₂ O ₅) d) 2 % potassium (K ₂ O)
Effect:	Stimulation of the root growth Improvement of the soil structure and nutrient supply Activation of the soil life Increase of the buffering capacity
Field of application:	Recultivation of virgin soils Treatment of the planting holes Revitalisation of lawns and forest land Pretreatment of planting areas
Packaging:	30 kg plastic cans, 200/220 kg plastic barrels
Sale:	SW Düngesysteme GmbH Am Exer 10 b 38302 Wolfenbüttel Germany Phone: ++ 49 / 53 31 / 90 31 10 Fax: ++ 49 / 53 31 / 90 31 29 e-mail: info@sw-duenger.de Internet: www.sw-duenger.de
